

Application Number: 10/828,424

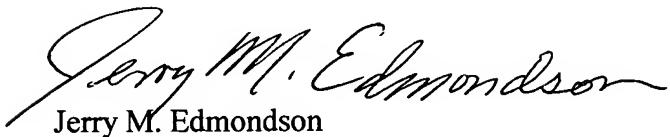

Art Unit: 1724

Response to Office Action

Summary:

I appreciate the thoroughness of the examination and believe that the amendment being presented offers a better disclosure of the invention and hopefully the examiner will pass the application for issue to US Patent. If however, the examiner believes there is a better way of defining the claims I will certainly consider an examiners amendment.

Respectfully submitted by the Inventor:

Jerry M. Edmondson

Mailed at the US Post Office in Newport Beach, CA 92659 by Jerry Edmondson with first class postage affixed March 10, 2006.
